Instructions to Students

You must complete ALL parts of the activity within the assessment.

Read the assessment information carefully.

You must plan your time and submit all required evidence at the end of the supervised period.

The task must be undertaken at the time and on the date specified by Pearson.

You have **two hours** in total to complete this task.

Your provider will advise you of when any supervised breaks have been scheduled.

The task must be completed under supervised conditions.

During this task you are **not** permitted:

- to have access to the internet
- to use AI or any other tool designed to automate producing a response.

Your provider will provide you with a '**read only**' copy of the evidence you produced in Task 4a to assist you with your evaluation.

You are not allowed to make changes to evidence produced in previous tasks.

Your work and any material provided must be kept securely at all times.

Set Task Brief

The project is now complete and is in the process of being handed over to RetailX Ltd.

Your company's policy insists that all employees reflect on the quality of their work at the end of every project.

Your manager has asked you to produce a report to review the quality of your work.

Your manager has provided you with the system and user requirements to help.

Activity

Produce a report which reviews the solution you produced in Task 4a.

Your report should provide judgements about:

- how well the solution you produced meets:
 - the system requirements
 - the user requirements
- how the solution could be further developed.

Your report should also provide a rationale to support the judgements you have come to.

You have been provided with a copy of the system and user requirements in the Set Task Information to help you with your evaluation.

Your evaluation should be supported by specific examples from your work.

(Total for Task 4b = 9 marks)

Outcomes for Submission

Save your report as a PDF file.

Your file should be saved in your folder for submission.

Use this naming convention:

- *Task4b_DSD_Review_[Registration number #]_[surname]_[first letter of first name]*

Set Task Information

The system requirements provided for Task 4a were:

RetailX Ltd has provided these updated system requirements:

- the existing code provided allows users to input a Product ID and date range to calculate the total number of units sold in that time frame
- the solution must also identify trends and patterns over time for:
 - sales of different categories of products
 - income and profit made on different products
- the solution must be secure.

RetailX Ltd has also provided user requirements for the solution. The solution should:

- be easy to use
- display information in a meaningful way
- make use of appropriate textual, numerical and graphical output in a way that would be relevant to the end user.

Note – the data shows the daily sales of a select sample of products over a 4-week period.
